1. You had indicated that the [ ] Final Report was not properly classified and should be published in our series. I asked [ ] to assure that we were actually in possession of all copies, since the classification as indicated on the Routing Slip is actually [ ] will be visiting [ ] and will assure that he is in possession of all copies.

2. We had discussed the value of the information received from this project and believe that interest would be very low indeed, since the results are primarily directed towards [ ] effectiveness. We plan to let people most likely to be interested know that such measurements exist, but not go to the bother of publishing one of the usual STR's. Is this all right with you?
